CGPA 7.23

MTech. (Master's Degree)

CGPA 7.37

Projects

(1) Flashcard Generator

A Flashcard Generator facilitates the creation, organization, and interactive studying of flashcards for efficient learning and retention of information.

(2) Quiz-App

A quiz app offers users the opportunity to test their knowledge on a variety of topics through interactive quizzes, providing instant feedback and score tracking for an engaging learning experience.

(3) Music-Listening-Website

A music listening website provides users with access to a vast library of songs and albums from various genres, allowing them to stream music.

(4) BookMyShow (Backend)

This website allows us to book a movie ticket online.

(5) Zomato Orders (Backend)

Restaurants take a lot of orders in a day and when we have a chain of restaurants, our database should be robust. Hence, we tried to implement a restaurant ordering server.
